UI & styling

SCSS BEM Tailwind CSS
Material Angular PrimeNG
Bulma Bootstrap
Design systems

Quality & architecture

Clean code
Hexagonal architecture
Testing DDD TDD
CI/CD

/05 — EXPERIENCE

FREELANCE

2024 — NOW

Full Stack Developer

El Salvador · Remote

I design and build custom websites for professionals and organizations, from frontend architecture to backend services, with Angular (v14+) and Node.js.

- ↳ Web portfolios for photographers, focused on showcasing image galleries.
- ↳ Blogs and informational landing pages with responsive design and easy-to-update content.
- ↳ Landing pages for churches and organizations, featuring their activities and contact channels.

FINANCIAL INSTITUTION

2022 — NOW

Frontend Lead

El Salvador · Since Oct. 2022

I lead frontend development of the corporate CRM of a financial institution in El Salvador, the platform that orchestrates key customer management processes. I define the application architecture, coding standards and integration with internal services to deliver a consistent, secure and scalable experience for business teams.

- ↳ Designed a modular frontend architecture that allows new management flows to be added without compromising maintainability.
- ↳ Established quality standards for the team: reusable components, strict typing and code reviews.
- ↳ Coordinate integration with backend services and design teams to continuously deliver critical features.

WARESOFT

2021 — 2022

Full Stack Developer → Frontend Lead

Chile & El Salvador · Until Oct. 2022

Built web and mobile applications for clients in Chile and El Salvador, first as a full stack developer and later leading frontend on Angular projects.

- ↳ Mundo Terrenos: real estate sales platform with interactive maps and property geolocation through markers.
- ↳ GIMH: rental management app built full stack with React, Node.js, PostgreSQL and CouchDB.
- ↳ Sherwin-Williams: end-to-end development with Angular 12, from the admin panel to the main site, plus support on the Flutter mobile version.
- ↳ Diparvel: led frontend development of the application with Angular 14.

/03 EDUCATION / CERTIFICATIONS

2025 · CERTIFICATION

Full Stack Development

Kodigo · El Salvador

2024 · BACHELOR'S DEGREE

Bachelor's Degree in Computer Science

Universidad Tecnológica de El Salvador (UTEC)
